

Request for Quotation (Specification)

Please issue a reference quotation according to the following conditions.

1. General Conditions

1-1. Submission Destination	Okinawa Institute of Science and Technology School Corporation (OIST)
1-2. Title	2nd Data Center Research Data Storage
1-3. Delivery Due Date	2026/2/27
1-4. Delivery Place	OIST 2nd data center RDS Room
	at Okinawa Institute of Science and Technology School Corporation (OIST Onna Campus: 1919-1 Tancha, Onna-son, Okinawa, 904-0495 Japan)

2. Composition and specification

(A) Composition

Refer to the specification details in “OIST Research Data Storage Specification details v1.2.0.docx”

(B) Specification and performance

Refer to the specification details in “OIST Research Data Storage Specification details v1.2.0.docx”

(C) Proposal and evaluation

The vendor should provide a proposal according to the section 4 in the specification details in “OIST Research Data Storage Specification details v1.2.0.docx”

Each vendor will be evaluated based on the criteria in section 3 in the specification details in “OIST Research Data Storage Specification details v1.2.0.docx”

All other requirements in the specification details should also be fulfilled by the vendor.

(D) Acceptance inspection at delivery

Test and Inspection
Refer to the specification details in “OIST Research Data Storage Specification details v1.2.0.docx”, specifically section 10.

3. Other

3-1. Warranty		
Period:	1 year	after acceptance
Should a defect or failure arise, the vendor agrees to repair or replace broken parts within a reasonable period of time (OIST may designate) in above		

warranty term. Repair will be performed at the expense of the vendor, as long as the failure was not due to negligence or misuse on the part of OIST employees.

If the delivered subject matter does not conform to the specifications and performance described in this specification sheet, the information provided in advance by the seller, the official catalog or the website, etc. (hereinafter referred to as “Unconformity”), OIST may request to seller correction of the subject matter, delivery of a substitution of the subject matter or completion of the subject matter by receiving the missing or incomplete part(s) of the specifications, by notifying seller within one year from the time when OIST becomes aware of the Unconformity. However, the proviso in Paragraph 1 of Article 562 of the Japan Civil Code does not apply to this case.

3-2. Documents to be submitted at the delivery

Operation manuals	digital	Copy(ies) in	English
Result data sheet of installation test	digital	Copy(ies) in	Japanese
Inspection Check Sheet	1	Copy(ies) in	English Japanese
Delivery slip	1	Copy(ies) in	English /Japanese
Invoice	1	Copy(ies) in	English /Japanese

3-4. Miscellaneous provisions

On delivery and installation, the seller must submit the delivery plan to the OIST’s facility personnel beforehand, and give sufficient consideration to the existing facility by using sheet curing etc., while considering related regulations in Japan.

Seller must deliver the delivery items securely to the delivery place described at 1-4. at their responsibility.

Primal site preparation for installation/operation of instrument would be supplied by OIST. The seller is requested to provide necessary instruction to OIST’s person in charge at submission of the reference quotation regarding required utilities, as follows;

- Requirements for constructions, electricity power supply, air conditioning, piping (water supply/drain, exhaust, gas)
- Required information for necessary notification to the government etc.

The seller must collect packaging materials and wood scraps.

The seller must cover the cost of delivery, installation and travel, accommodation, consumables for operating instruction.

If special tools are required for the usual operation and maintenance, the seller must supply them at the delivery.

Any question arising out of, or in connection with, this transaction or any matter

not stipulated herein shall be settled each time upon consultation between both parties. The seller will respect to the will of OIST as much as possible in settling such matters.

3-5. Providing information regarding safety matters

At submission of quotation, seller must give a notice to OIST's person in charge if delivery items would be subject to control by the Japanese regulations such as;

- High frequency equipment (Ultrasonic washing machine etc.)
- Laser devices (Class 3R, 3B and 4)
- Radiation equipment (x-ray equipment, charged particle accelerators, devices equipped with radioactive substances, etc.)
- Local exhaust ventilation (fume hoods, push-pull type ventilation equipment, etc.)
- Crane equipment
- Boilers
- Acetylene welding equipment
- Fuel tank
- Storage Battery System
- Class 1 pressure vessels
- Power press equipment
- Industrial dryers, Oven
- Electrical Discharge Machines

OIST drives proper earthquake countermeasures at installation of equipment or furniture.

(1) The seller is requested to provide the information about appropriate methods of protection for the system from earthquake, and cooperation when OIST takes earthquake countermeasures for the system regardless delivery date (prevention against over-turning, fixation method etc.).

(2) When computers and/or displays are included, the seller shall provide earthquake countermeasures by banding or sticking at the installation. Necessary straps or gel pads will be provided by OIST.
