

AAUS SCIENTIFIC DIVER TRAINING PROGRAM

Term 1 (September-December) Introduction to Scientific Diving and Snorkeling

During this course participants will be introduced to the fundamentals of OIST Scientific Diving. Divers will earn their NAUI Scuba Diver, Advanced Diver, and Nitrox Diver certifications while completing on campus lectures and field-based lab sessions

Term 1 Synchronous (September-December) AAUS Lead Diver and Divemaster

Divers interested in becoming Lead Divers, pursuing NAUI Divemaster Certification and Japanese Divers License will be invited to take the OIST Divemaster course. These Divers will assist in the Introduction to Scientific Diving Course, gaining practical experience teaching and training new divers, explaining technical interdisciplinary topics, and leading dive teams.

ENROLLING NOW

Term 2 (January-April) AAUS Scientific Diver

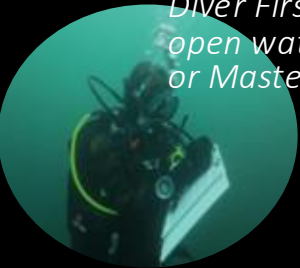

OIST Divers will be immersed in the fundamentals of becoming a Scientific Diver. Students will begin the term earning their NAUI Rescue Diver and Diver First Aid certifications and finish their experience with the required 12 open water dives for AAUS Scientific Diver Authorization and NAUI Advanced or Master Diver Certification.
